

OLYMPIC SERIES

Mutluluk Veren, Hijyenik Havuzlar için Rital

En kaliteli, en hijyenik ve en güvenilir porselen havuz karolarını, modern üretim tesislerimizde ayrıcalıklı havuzlar için üretiyoruz.

Rital for Happy, Hygienic Pools

We produce best quality, most hygienic, and most reliable porcelain pool tiles for privileged pools in our modern production facilities.

Rital Porselen, yüzlerce çeşit yeni ürünü, farklı fonksiyonel çözümleri ve onlarca patentli tasarımıyla başarısını sadece Türkiye’de değil, dünya ölçeğinde de kanıtlayarak 5 kıtada, 99 ülkeye ihracat yapan bir dünya markası.

Kalite, hijyen, güven ve sağlamlık gibi kavramların hakkını vermek amacıyla, insan sağlığına gösterdiği özenin bir yansıması olarak “en”lerin izini süren **Rital** Porselen, dünyanın en sağlıklı, en hijyenik ve en güvenilir malzemesi olan porseleni, havuzlara kazandırmış olmanın gururunu yaşıyor.

***Rital** Porcelain is a global brand that exports to 99 countries in 5 continents, proving its success not only in Türkiye but also on a world scale, with hundreds of new products, different functional solutions and dozens of patented designs.*

***Rital** Porcelain, following the “best” as a reflection of the care it shows to human health, in order to give a credit to the concepts such as quality, hygiene, trust, and durability, is proud of bringing the world’s healthiest, most hygienic and most reliable material; porcelain to pools.*

There is water in every pool,
privileged pools have water and Rital ...

Her Havuzda Su Vardır,
Ayrıcalıklı Havuzlarda Su ve Rital ...

History of Olympic Pools

It's a sport where those who have talent are good, but those who practice are great...

The history of swimming, which has many benefits for body health, is almost as old as human history. It is one of the most important proofs that many types of swimming were known and practiced in Ancient Egypt, Sumer and the Hittites, and that man's acquaintance with swimming dates back to ancient times.

In ancient Roman and Greek civilizations, swimming was applied as a part of basic education along with military training, while the Romans had swimming pools built separately from the baths.

In Japan, the fact that the kingdom made swimming education compulsory in schools shows that people have been interested in swimming since the earliest times and formed a culture related to swimming.

The construction of the first open-air pool in Liverpool in 1828 is an important part of swimming. It went down in history as a step. The first international competitions were held in London in 1837 and then in Australia in 1846.

Swimming races were also included in the first Olympics organized with the resumption of the modern Olympic games in 1896. The backstroke style was added to the Olympics in 1900 and the breaststroke style in 1908. With its prevalence as an organized sport all over the world and its inclusion in the Olympic program, the necessity of establishing an international federation for this sport has emerged.

Thus, the International Amateur Swimming Federation FINA (Federation Internationale de Natation Amateur) was established in London in 1909. Styles and water sports in international competitions have changed over the years and took their current form. The FINA regulations, which took their final form to be implemented for the years 2021-2025, are still valid.

Olimpik Havuzların Tarihçesi

Yeteneği olanların iyi ama pratik yapanların harika olduğu bir spor...

Vücut sağlığı için birçok faydası olan yüzme sporunun tarihi, neredeyse insanlık tarihi kadar eskilere dayanıyor. Eski Mısır, Sümer ve Hititlerde yüzmenin pek çok çeşidinin bilindiği ve uygulandığı, insanoğlunun yüzme ile tanışmasının çok eskiye dayandığının en önemli kanıtlarından.

Eski Roma ve Yunan uygarlıklarında yüzme, askeri eğitimle birlikte temel eğitimin bir parçası olarak uygulanırken, Romalılar hamamlardan ayrı olarak yüzme havuzu yaptırıyorlardı.

Japonlarda ise krallığın yüzme eğitimini okullarda zorunlu kılması, en eski çağlardan beri insanların yüzme ile ilgilendiğini ve yüzmeye ilişkin bir kültür oluşturduğunu gösteriyor.

İlk açık hava havuzunun 1828'de Liverpool'da yapılması ise yüzme sporunda önemli bir adım olarak tarihe geçti. İlk uluslararası yarışmalar, 1837'de Londra'da ve ardından 1846'da Avustralya'da düzenlendi.

1896'da modern olimpiyat oyunlarının tekrar başlatılması ile düzenlenen ilk olimpiyatlarda yüzme yarışlarına da yer verildi. 1900 yılında sırt üstü stili ve 1908 yılında ise kurbağalama stili olimpiyatlara eklendi. Bütün dünyada örgütlü bir spor olarak yaygınlık kazanması ve olimpiyat programına alınması ile birlikte, bu spor dalı için uluslararası bir federasyon kurulması gerekliliği ortaya çıktı.

Böylece 1909'da Londra'da Uluslararası Amatör Yüzme Federasyonu FINA (Federation Internationale de Natation Amateur) kuruldu. Uluslararası yarışmalardaki stiller ve su sporları yıllar içinde değişikliklere uğrayarak günümüzdeki halini aldı. 2021-2025 yılları için uygulanmak üzere son şeklini alan FINA yönetmelikleri ise hala geçerliliğini sürdürüyor.

Fotosera

“Hayallerinizi yansıtan karolar”

“Tiles that reflect your dreams”

Fotosera; porselen karo üzerine uygulanan dijital baskı sanatıdır. Dijital fotoğraf teknolojisinin geniş olanakları kullanılarak özel olarak üretilir. Havuzların içine hayal ettiğiniz dünyayı yerleştirebilme imkanı sunan Fotosera, mercan resiflerinin renkli dünyasının coşkusu, antik sütunların ve mozaiklerin görkemli ortamını, rengarenk balıkların görsellerini yansıtır.

Ayrıca havuz çevresinde, binaların iç ve dış mekanlarında dilediğiniz motifleri, logoları, seçtiğiniz fotoğrafları, istediğiniz yere uygulayarak dijital baskı teknolojisi ile kalıcı görsel zenginliğe kavuşabilirsiniz.

%100 porselen olarak ürettiğimiz Fotosera ürünleri, iklim koşullarına ve olumsuz çevresel faktörlere karşı dayanıklılığı sayesinde uzun kullanım ömrüne sahiptir.

Fotosera; It is the art of digital printing applied on porcelain tile. It is specially produced using the wide possibilities of digital photography technology. Offering the opportunity to place the world you imagine in the pools, digital print reflects the enthusiasm of the colorful world of coral reefs, the magnificent environment of ancient columns and mosaics, and the visuals of colorful fish.

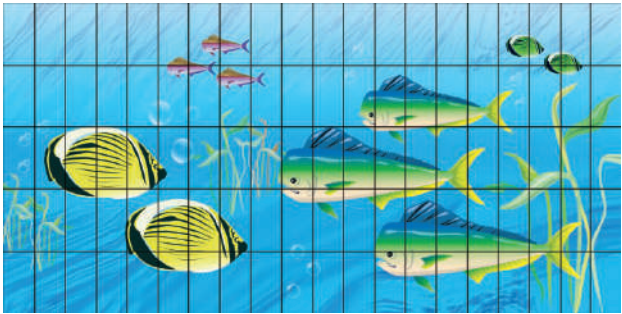

In addition, you can achieve permanent visual richness with Fotosera technology by applying the motifs, logos, photos you choose, anywhere you want, around the pool, indoors and outdoors of the buildings.

Fotosera products, which we produce as 100% porcelain, have a long service life thanks to their resistance to climatic conditions and adverse environmental factors.

PORSELEN KANALLAR VE IZGARALAR

PORCELAIN CHANNELS AND GRATING

PORSELEN TÜNEL SİSTEM

PORCELAIN TUNNEL SYSTEM

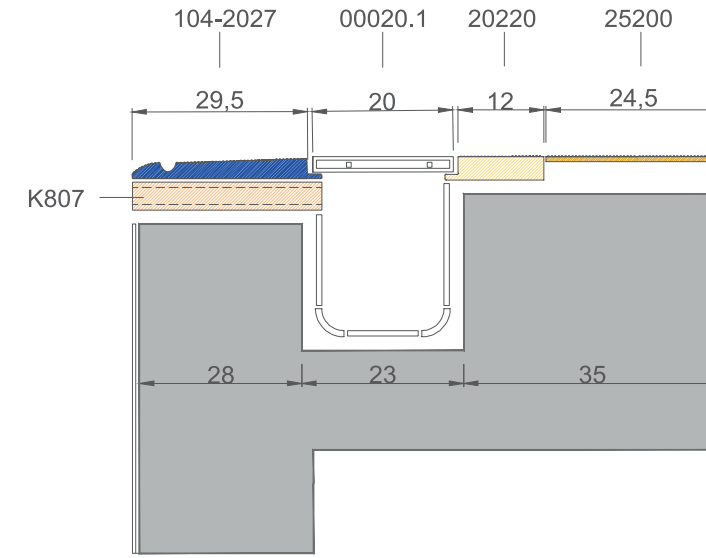

25 x 30 cm

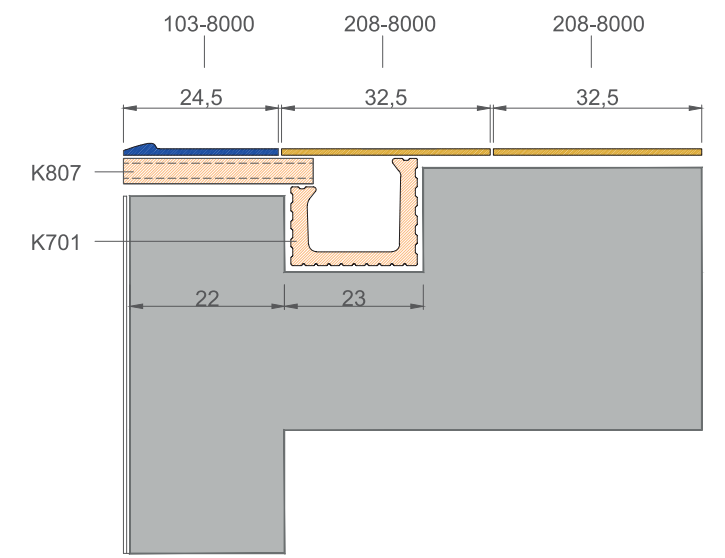

Ürün Kodu / Product Code / RK807

Rital Porselen tarafından özel olarak geliştirilen Tünel Sistem, havuz seviyesinden taşan suyu tahliye ederek terasların ıslanmasını önler ve havuz çevresinin kuru kalmasını sağlar. Havuz suyunun, Tünel Sistem kanalında bulunan gözeneklerden savak kanalına dalgalı değil de kırılarak akması ve savak kanalının kapalı bir sistem olmasından dolayı su sesi daha az gelir. Böylece su sesi ve havuz çevresinin ıslanması gibi kullanıcıları rahatsız edebilecek etkenleri devre dışı bırakan Tünel Sistem, konforlu bir kullanım sunar. Ayrıca havuzlara mükemmel bir estetik katan Tünel Sistem, işçilik nedeniyle oluşabilecek dengesiz su tahliyesi hatalarını da ortadan kaldırır.

The Tunnel System, specially developed by Rital Porcelain, prevents the terraces from getting wet by draining the water overflowing from the pool level and keeps the pool surroundings dry. Since the pool water flows from the pores in the Tunnel System channel to the weir channel by breaking, not wavy, and because the weir channel is a closed system, the water sound is less. Thus, the Tunnel System, which disables the factors that may disturb the users such as the sound of water and the wetting of the pool area, offers comfortable use. The Tunnel System, which adds a perfect aesthetic to the pools in terms of architecture, also eliminates the unbalanced water discharge errors that may occur due to workmanship.

İÇTEN TAŞMA DETAY / INTERNAL OVERFLOW DETAIL

- İçten taşmalı havuzlarda kullanım imkanı
- Havuzlardan taşan suların sağlıklı bir şekilde tahliyesi için özel olarak yapılmış tasarım
- %100 porselen yapısı sayesinde düşük su emme oranı ve bakteri oluşumu engeli
- Donmaya ve iklimsel şartlara karşı yüksek dayanım
- Tek parça olması sayesinde köşe birleşim noktalarında su izolasyonu avantajı
- Döşeme kolaylığı ve zaman tasarrufu
- Geliştirilmiş özenli detaylar ve estetik çözümler
- Daha az derz kullanımı sayesinde daha yüksek hijyen

- Possibility of use in the internal overflow pools
- Specially made design for the healthy discharge of overflowing water from the pools
- Low water absorption rate and bacteria formation barrier thanks to its 100% porcelain structure
- High resistance to freezing and climatic conditions
- Advantage of waterproofing at corner joints thanks to being one piece
- Ease of laying and time saving
- Improved meticulous details and aesthetic solutions
- Higher hygiene due to fewer groutings

NO	KOD	AÇIKLAMA	RENK	ÖLÇÜ		
				l	b	h
1	80121.3	Porselen Karo Porcelain Tile	Açık Mavi Light Blue	24,5	12,0	8
2	80127	Porselen Karo Porcelain Tile	Kobalt Cobalt	24,5	12,0	8
3	20201	Pötikare Kaymaz Petit Carre Antislip Tile	Açık Mavi Light Blue	24,5	12,0	8
4	20207	Pötikare Kaymaz Petit Carre Antislip Tile	Kobalt Cobalt	24,5	12,0	8

Takla atan yüzücülerin kaymaması için havuzun kısa kenarlı duvarında kaymaz malzeme kullanılması gereklidir.

It is necessary to use antislip tile on the short side wall of the pool to prevent the swimmers from slipping.
